

Are you looking to maintain a safe and healthy workplace?

The Partnership offers courses that provide CSEA-represented NYS employees with the skills and information necessary to implement safety and health laws and regulations and maintain safe work environments.

Safety and Health

Can help you and your employees:

- Understand OSHA/PESH regulations related to workplace safety and health issues
- Broaden safety skills with practical exercises
- Reduce workplace injuries
- Improve safety and security awareness on the job

For more information, contact:

Blanca Gonzalez-Parker • (518) 486-2936
