 **Once you add digital signature(s) and save the file, you cannot make any further edits to the document.** To that end, we recommend saving an unsigned version of the PDF to your files.

It is the policy of the State of New York to provide for and promote equal opportunity in employment and equal access to all programs and services without discrimination on the basis of age, race, color, creed, national origin, military status, sex, sexual orientation, gender identity or expression, disability (including pregnancy-related disability or condition), predisposing genetic characteristics, marital/familial status, status as a victim of domestic violence, or prior arrest/criminal conviction record.

PART C – PROJECT NARRATIVE

Explain the full scope of the project. Answer all questions and fields. Attach additional sheets if necessary.

1. Project Description

Provide a brief summary of the grant proposal, including an overview of the requested items and their purpose.

DOT workers have to work in various extreme weather conditions. They need ice to take on the road to keep their drinks cold and stay hydrated. Fans and ACs will help cool down break rooms for when they return.

2. Needs Assessment Process

Explain the process used to determine the need for this grant proposal.

Labor and management met to discuss the needs of the CSEA-represented employees at the DOT yard.

3. Project Benefits

Explain how you anticipate this project will benefit both your CSEA-represented NYS employees and your agency/facility.

It will allow them to have cold drinks in hot weather and a cool area to return to after being in the heat all day. This will keep them happier and more productive.

PART D1 – PROJECT BUDGET WORKSHEET

Use this worksheet for break/lunchroom improvement, wellness and health education, working conditions, and special projects. Enter a description appropriate for the grant category, and complete all other columns, as relevant. Please submit additional information, such as vendor quotes, as relevant. Use the notes page or attach pages, if necessary.

About this item

- High Ice Production Capacity & Ample Ice Storage Capacity - The commercial ice machine has a remarkable production capacity of 500lbs of ice per 24-hour cycle, and with its impressive 350lbs ice storage bucket, ensuring an abundant supply of ice for your business needs.
- Fast & Efficient Freezing Compressor - Our commercial ice machine is equipped with a powerful and cost-effective compressor to achieve advanced freezing technology. The ice machine can quickly freeze water into ice, thereby achieving fast and continuous ice making.
- Sturdy Construction & Reinforced Components - The ice machine is made from strong and durable materials, such as stainless steel or heavy-duty plastic, to meet the demands of commercial use. The compressor, evaporator and condenser are upgraded and designed to be rugged and reliable for long-term performance. It also adopts a detachable head panel design for easy maintenance.
- Long-lasting Insulation and Food-Safe Design - The insulation material used in the ice storage bin can maintain insulation performance for a long time, and the food-grade PP liner inside the machine ensures a clean and sanitary environment for ice production, meeting health and safety standards.
- Versatile Application - With its generous ice production capacity, this machine is suitable for various commercial settings such as
